The Nomination Committee's statement regarding the composition of the proposed Board of Directors and the proposed remuneration.

The Nomination Committee's view is that the proposed composition of the Board of Directors provides the Board with a wide competence and diversity and sound experience from the segments and markets where the company is conducting its business. The Nomination Committee notes that the proposal entails a strengthening of the Asian competence and that the balance between men and women is improved.

The Nomination Committee has conducted an evaluation of the remuneration to the Board members. The basic underlying principle of directors' fees is that remuneration shall be reasonable and competitive enough in order to allow SKF to be able to attract members with high skills and experience in a global market. The compensation shall also reflect the responsibilities and the amount of time that the directorship entails. The fixed remuneration levels in SKF have been untouched for three years. The Nomination Committee has therefore concluded that it is reasonable and necessary to propose an increase of the fixed fees for board and committee work as set out in the proposal to the annual general meeting. The variable remuneration remains unchanged.
